

DETAILED ACTION
EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Presson on 4/8/2009. Applicant requests further amendment as follows:

Claim 11 (currently amended):

An image correction method comprising the steps of:

- receiving image data of an image_from an imaging ~~apparatus~~ device, subjected to an automatic white balance correction;
- categorizing the image data into one of a plurality of categories with respect to a magnitude of brightness and a range of brightness;
- converting image data according to one of a plurality of scene-reference color space formats;
- storing both the converted image data and the unconverted image data of the image_in a memory;
- performing the tone correction for the stored image data; and

wherein a plurality of luminance values corresponding to a plurality of cumulative histogram values with equal intervals are extracted from the image data in a YscYCC format,

wherein the image data is categorized into a plurality of categories according to a first extracted luminance value and a luminance range determined by a second extracted luminance value and a third extracted luminance value,

wherein the category information is used for selecting tone correction parameters, and

wherein the plurality of scene-reference color space formats comprise a first scene-reference color space format and a second scene-reference color space format having linear image data and an extended color space of the first scene-reference color space format.

Allowable Subject Matter

Claims 1-19 are allowed.
